

Tecnológico de Monterrey will offer courses online this next Spring Semester 2021 for international students who won't be traveling abroad next year.

Our Virtual Exchange Program (VEP) includes more than 100 undergraduate courses in different disciplines and in both Spanish and English language. You can check the list of courses on the following link:

<https://sites.google.com/tec.mx/onlinecourses/home>

Note that the courses don't have a schedule yet; the final schedule of each course will be published by the end of October.

Most of the courses will be synchronous; however, there are a few that will be asynchronous, that is, students could take them at any time as long as they start the course in time and submit the different course activities on the specified deadlines.

We will include this offer as part of our regular exchange.

The selection and nomination of the candidates must be made by ETSIAE's International Office, thus the interested students should send an e-mail to:

internacional.aeroespacial@upm.es
